

## Seminar List 2014

Laura Poliseno Pisa, Italy (Del Pozzo)	"Mechanisms of chemoresistance in melanoma: a role for microRNAs"	Mon 27 January 12.00
Stefano Stifani Montreal, Canada (Ursini/diPorzio)	"Regulation of stem/progenitor cell proliferation and differentiation in the developing and diseased nervous system"	Mon 24 February 12.00
Janet Rossant Toronto, Canada (G. Persico Committee)	<b>GRAZIELLA PERSICO LECTURE</b> "Making the mouse blastocyst"	Mon 3 March 12.00
Luca Bonini Parma, Italy (Perrone-Capano)	"The mirror neuron system: an evolutionary perspective"	Thur 13 March 12.00
Brian Hendrich Cambridge, UK (D'Esposito)	"Transcriptional control of stem cell fate"	Mon 24 March 12.00
Corinne Houart London, UK (Simeone)	"Temporal control of signalling centres in regulation of forebrain size and complexity"	Mon 7 April 12.00
Ian Chambers Edinburgh, UK (Simeone)	"Transcription factor control of transitions in pluripotent cell states"	Mon 14 April 12.00
Hugues De Thé Paris, France (Altucci)	"Dissecting APL pathogenesis through therapy response"	Mon 28 April 12.00
Enrico Tongiorgi Trieste, Italy (Miano)	"Dendritic Trafficking of BDNF mRNA Variants in Neuropsychiatric Diseases: The "Spatial Code Model"	Mon 26 May 12.00
Denis Duboule Genève, Switzerland (Minchiotti)	<b>ABCD LECTURE</b> "Long range gene regulation in mammalian development and diseases"	Mon 9 June 12.00
Michiel Vermeulen Utrecht, NL (Altucci)	"Quantitative interaction proteomics for epigenetics"	Mon 23 June 16.00
Daniela Sanges Barcelona, Spain (Simeone)	"Cell fusion-mediated reprogramming in vivo: a new mechanism for retinal regeneration"	Mon 30 June 12.00
Karine Merienne Illkirch, France (Miano)	"Epigenetic alterations in Huntington's disease"	Mon 7 July 12.00
Nissim Benvenisty Jerusalem, Israel (Minchiotti)	"Chromosomal abnormalities in human pluripotent stem cells: From tumorigenicity to developmental disorders"	Mon 15 September 12.00
Deborah Charlesworth Edinburgh, UK (Colonna)	"The Evolution and Molecular Evolution of Plant Sex Chromosomes"	Mon 6 October 12.00

<i>Florian Kuchenbauer Ulm, Germany (Cimmino)</i>	<i>"MicroRNAs: Novel biomarkers and regulators of leukemogenesis and hematopoiesis"</i>	<i>Mon 20 October 12.00</i>
<i>Eugene Tulchinsky (Verde)</i>	<i>Epithelial Mesenchymal Transition: The crossroads between differentiation, tumorigenicity, invasion, proliferation and cell death</i>	<i>Mon 27 October 12.00</i>
<i>Marc Piechaczyk Montpellier, France (Verde)</i>	<i>"SUMOylation of proteins as a target to overcome chemoresistance and other stories of transcription factors"</i>	<i>Mon 17 November 12.00</i>
<i>Didier Stainier Bad Nauhem, Germany (Baldini)</i>	<i>"Imaging organ formation and function in zebrafish"</i>	<i>Mon 24 November 12.00</i>
<i>Piergiuseppe Pelicci Milan, Italy (Altucci, Minchiotti)</i>	<i>"Regulation of self renewal in cancer Stem Cells"</i>	<i>Mar 16 December 12.00</i>
