

Seminar List 2016

Remo Sanges Naples, Italy (Colonna)	2 nd IGB PhD Retreat "Transcription, Transposons, Noncoding and the Evolution of Organismal Complexity"	Friday 12 February 10.15
Adriana Albini Milano, Italy (Cimmino)	"The tumor microenvironment as target for therapy and prevention"	Mon 29 February 12.00
Anna Maria Teti L'Aquila, Italy (Gianfrancesco)	"The great beauty of the skeleton"	Mon 7 March 12.00
Giovanni Tonon Milan, Italy (Miano)	"Synthetic Lethal Approaches Exploiting DNA Damage"	Mon 14 March 12.00
Raoul CM Hennekam Amsterdam, Holland (Fusco)	"The next step after Next Generation Sequencing"	Mon 21 March 12.00
Giulio Cossu Manchester, UK (Simeone)	"Cell therapy for muscular dystrophy: lessons learned and the road to efficacy"	Mon 11 April 12.00
Richard Gregory Boston, USA (Fico, Matarazzo)	"RNA Regulation in Stem Cells and Disease"	Friday 29 April 12.00
Piero Carninci Kanagawa, Japan (Miano)	"Surprises from studies of mammalian transcriptomes"	Mon 2 May 12.00 pm
Patrick Mehlen Lyon, France (De Falco)	"The dependence receptor paradigm: from deciphering a cell death pathway to developing novel anticancer drugs"	Mon 23 May 12.00 pm
Alfonso Martinez-Arias Cambridge, UK (Simeone)	"Genetically supervised self organization in mouse embryonic organoids"	Mon 30 May 12.00
Ramiro Garzon Ohio, USA (Cimmino)	"Long non coding RNAs in Acute Myeloid Leukemia"	Mon 6 June 12.00
Luciano Di Croce Barcelona, Spain (Altucci/Minchiotti)	"Transcriptional Complexity in Stem Cells"	Thursday 16 June 11.00 AM
Johan Ericson Stockholm, Sweden (Bellenchi)	"A Shh/Gli-driven timer determines the temporal identity and fate of neural stem cells in the developing CNS"	Monday 27 June 12.00
Markus Schwaninger Luebeck, Germany (Ursini)	"Incontinentia pigmenti – a neurovascular disease?"	Mon 4 July 12.00

Shahragim Tajbakhsh Paris, France (Minchiotti)	"Stem cell heterogeneities in developmental and regenerative myogenesis"	Wed 21 September 16.00
Denis Duboule Lausanne, Switzerland (Simeone)	Mini course "Development and Evolution; A Difficult Wedding"	Wed 28 September 10.00
Denis Duboule Lausanne, Switzerland (Simeone)	Mini course "HOX genes and making of the vertebrate body plan"	Thur 29 September 10.00
Denis Duboule Lausanne, Switzerland (Simeone)	PREMIO GIOVANI BIOLOGI Plenary Lecture "Of Hox and TADs: The Genetic Basis of Preformation"	Fri 30 September
Stefano Puglisi-Allegra Rome, Italy (De Leonibus)	"Mesocorticolimbic dopamine beyond reward"	Mon 24 October 12.00
David Savage Cambridge, UK (Ciccodicola)	"Understanding human insulin resistance - what has lipodystrophy taught us?"	Monday 7 November 12.00
James Briscoe Oxford, UK (Simeone)	"The Cellular and Molecular Logic of Neural Tube Development"	Mon 21 November 12.00
Stephane Nedelec Paris, France (Bellenchi)	"Neuronal diversity in development and disease: a human pluripotent stem cell perspective"	Mon 5 Dicembre 12.00
Rory Johnson Barcelona, Spain (Costa)	"Mapping long noncoding RNAs in the human cell"	Mon 12 Dicembre 12.00
Francesco Cassata Genova, Italy (Miano)	"Se gli italiani fossero intelligenti": Adriano Buzzati-Traverso e il LIGB di Napoli	Wed 14 December 16.00

IGB Seminar Committee

Dr. Marina Ciullo
Dr. Gabriella Minchiotti
Prof. Antonio Simeone
Ms. Anna Maria Aliperti
